Welcome to the latest May 2015 Newsletter.
This will be produced every 2-3 months and lists the most recent literature in the field.

Full text links are provided where available please login to Athens to access the article. If you do not have an NHS Open Athens account register at https://register.athensams.net/nhs/nhseng

QEBH, HEFT and RWT now have an online document supply request form for requesting journal articles, leading to a faster and more efficient service. Register now at http://www.basedoc.co.uk.
There may be a charge for this service.

If you cannot access the full text, please contact your local trust library, who will be able to assist you. There may be a charge for this service. You may also access journals via http://www.evidence.nhs.uk via your Athens account

Table of Contents

High Level Evidence ................................................................. 1
Adrenal Gland ................................................................. 2
Bone and Metabolic Disorders ........................................ 3
Gastric and Neuroendocrine Disorders ...................................... 4
Genetics ........................................................................ 5
Gonadal and Reproductive Disorders ......................................... 5
Obesity ........................................................................ 6
Pituitary Gland and Disorders .............................................. 6
Thyroid and Parathyroid Glands and Disorders ......................... 8
High Level Evidence

**Endoscopic or surgical intervention for painful obstructive chronic pancreatitis.** Cochrane Database of Systematic Reviews [Online], (3). [Link to Full Text]

Zhang, J et al. (2010) 
**Chinese herbal medicine for subfertile women with polycystic ovarian syndrome.** Cochrane Database of Systematic Reviews [Online], (9). pp. [Link to Full Text]

Adrenal Gland

Allolio, B (2015) 

**Diagnosis and management of adrenal insufficiency.** The Lancet Diabetes & Endocrinology, 3 (3), pp. 216-226.

**In vitro functional studies of rare cyp21a2 mutations and establishment of an activity gradient for nonclassic mutations improve phenotype predictions in congenital adrenal hyperplasia.** Clinical Endocrinology, 82 (1), pp. 37-44. [Link to Full Text]

**Hypopituitarism: growth hormone and corticotropin deficiency.** Endocrinology and Metabolism Clinics, 44 (1), pp. 127-141.

**Ovarian and adrenal androgens may be useful markers to predict oocyte competence and embryo development in older women.** Gynecological Endocrinology, 31 (2), pp. 125-130.

Fleseriu, M (2015) 
**Medical treatment of Cushing disease.** Endocrinology and Metabolism Clinics, 44 (1), pp. 51-70.

Fragoso, MCBV & Alencar, GA et al (2015) 
**Genetics of primary macronodular adrenal hyperplasia.** Journal of Endocrinology, 224 (1), pp. R31-R43. [Link to Full Text]

**Timelines in the management of adrenal crisis – targets, limits and reality.** Clinical Endocrinology, 82 (4), pp. 497-502. [Link to Full Text]

**Adrenal responses to a low-dose short synacthen test in children with asthma.** Clinical Endocrinology, 82 (5), pp. 648-656. [Link to Full Text]

**Variation in absorption and half-life of hydrocortisone influence plasma cortisol concentrations.** Clinical Endocrinology, 82 (4), pp. 557-561.

**Adrenal insufficiency: Review of clinical outcomes with current glucocorticoid replacement therapy.** Clinical Endocrinology, 82 (1), pp. 2-11. [Link to Full Text]

Kacheva, S & Kolk, K et al (2015) 

**Enhanced oxidative stress and platelet activation in patients with Cushing’s syndrome.** Clinical Endocrinology, 82 (4), pp. 517-524.

Lee, RS & Sawa, A (2014) 
**Environmental stressors and epigenetic control of the hypothalamic-pituitary-adrenal axis.** Neuroendocrinology, 100 (4), pp. 278-287.

**The spectrum of clinical, hormonal and molecular findings in 280 individuals with nonclassical congenital adrenal hyperplasia caused by mutations of the CYP21A2 gene.** Clinical Endocrinology, 82 (4), pp. 543-549.

**Abundance of dlk1, differential expression of CYP11B1, CYP21A2 and MC2R, and lack of INSL3 distinguish testicular adrenal rest tumours from Leydig cell tumours.** European Journal of Endocrinology, 172 (4), pp. 491-499.

**Bone and Metabolic Disorders**

Gastric and Neuroendocrine Disorders

Genetics

Karavolos, S et al (2015) **Male central hypogonadism secondary to exogenous androgens: A review of the drugs and protocols highlighted by the online community of users for prevention and/or mitigation of adverse effects.** *Clinical Endocrinology, 82* (5), pp. 624-632.

Gonadal and Reproductive Disorders

Ferrario, M et al (2015) **Ovarian and adrenal androgens may be useful markers to predict oocyte competence and embryo development in older women.** *Gynecological Endocrinology, 31* (2), pp. 125-130.

Karavolos, S et al (2015) **Male central hypogonadism secondary to exogenous androgens: A review of the drugs and protocols highlighted by the online community of users for prevention and/or mitigation of adverse effects.** *Clinical Endocrinology, 82* (5), pp. 624-632.

**Obesity**

Wolfs, MGM et al (2015) Determining the association between adipokine expression in multiple tissues and phenotypic features of non-alcoholic fatty liver disease in obesity. *Nutrition & Diabetes*, 5, pp. e146. [Link to Full Text](#)

**Pituitary Gland and Disorders**

Lodish, M et al (2015) **Patterns of thyroid hormone levels in pediatric medullary thyroid carcinoma patients on vandetanib therapy.** International Journal of Pediatric Endocrinology, 2015 (1), pp. 3. [Link to Full Text](http://erc.endocrinologyjournals.org/content/22/2/169.abstract)

Paulo, SS et al (2015) **Sonic hedgehog mutations are not a common cause of congenital hypopituitarism in the absence of complex midline cerebral defects.** Clinical Endocrinology, 82 (4), pp. 562-569.

Potorac, I et al (2015) **Pituitary MRI characteristics in 297 acromegaly patients based on T2-weighted sequences.** Endocrine-Related Cancer, 22 (2), pp. 169-177. [Link to Full Text](http://erc.endocrinologyjournals.org/content/22/2/169.abstract)

Thyroid and Parathyroid Glands and Disorders

The following sources have been searched for evidence published in the previous three months

- Clinical Endocrinology
- Clinical Reviews in Bone and Mineral Metabolism
- Current Diabetes Reports
- Endocrine
- Endocrine and Metabolism Clinics
- Endocrine Pathology
- Endocrine-Related Cancer
- Endocrinology and Metabolism Clinics
- European Journal of Endocrinology
- Expert Review of Endocrinology and Metabolism
- Frontiers in Endocrinology
- Gynaecological Endocrinology
- International Journal of Pediatric Endocrinology
- JAMA
- Journal of Bone and Mineral Metabolism
- Journal of Endocrinology
- Lancet Diabetes and Endocrinology
- Lancet
- New England Journal of Medicine
- Neuroendocrinology
- Pituitary
- Reviews in Endocrine and Metabolic Disorders
- Thyroid
- Trends in Endocrinology and Metabolism
